

DUMPER PLACER

- Dumper placer is also known as skip loader which is used for carrying the different size of garbage containers or bins from one place to another. These are being manufactured with high strength, reliability, superior quality & utilization for its end use.
- Upholstery cleaner, carpet cleaning machines, foam generator machine, carpet blower, steam cleaner.

Model : QEETBDP - 6 M³

Model : QEEDP - 4.5 M³

Model : QEEDP - 2 M³

ADVANTAGES

- Carrying waste material containers of different sizes.
- It is a unique, highly productive, easy operational and low maintenance, hygienic system to help in keeping a city clean.
- Better waste handling equipment vehicle in its range of products.
- Heavy duty cylinders to carry heavy containers safely in very less time.
- Optimum loading & through heavy duty unloading hydraulic ability hoses, pumping system and safety devices like load holding valve, pressure & safety valve etc.
- Hydraulically arrangement for lifting system with the help of control lever for minimize the human efforts & time.
- Arrangement for stabilizing of vehicle with stabilizers for better strength & rigidity at the same time of heavy operation.
- Suitable for municipalities, building developments as well as individual.

Code	QEEDP-02, 2 Ton, 6 Ton, 7 Ton, 9 Ton,
Chassis	12 Ton, 16 Ton or can be Customized Mild
Sheet Material	Steel (IS:2062)
Thickness	3 mm (4,5,6) Etc
Lifting Capacity (Cum)	(2.5) (3.5) (4.5) (6.5) Etc, 2/4 Nos. for Container Lifting & Customize size
Hydraulic Cylinder	2 Nos. for Stabilizers (Customized) 30-80 LPM
Hydraulic Pump	Gear Pump / Vane Pump 40-80 LPM
Hydraulic Hoses	High Pressure Hoses
Power Take off	Suitable Power Transfer from vehicle PTO.
Hydraulic Tank	40-80 Ltres. or Customize According to Capacity
Lifting System	Hydraulic operated Cylinder & Control Lever.
