

SKY LIFT / HYDRAULICS ACCESS PLATFORM

- Sky lift is an also known as automatic lifting machine for maintenance purposes in different sections such as municipalities works, Highways, Building Glass Cleaning & Constructions etc.
- We are being manufactured with High Strength, Reliability, Superior Quality & Better utilization for its end use.

Model : QEESL - 11 MCM

Model : QEESL - 13 MCM

Model : QEESL - 7-9 MCM

ADVANTAGES

- It's unique, easy operational, low maintenance & full Proof system helps in keeping all operations safe.
- Safe load Handling capacity upto 250 Kg of FRP Bucket & Insulation of cage to minimize the accident and make the operation easy.
- Heavy duty cylinders to carry bucket that is attached with Booms on a required height safely in very less time.
- Optimum Lifting & Lowering ability through heavy duty hydraulic cylinders, hoses, Motor, Pump and safety devices like loading valve, pressure valve etc.
- Hydraulically arrangement for system with the help of Control level for minimize the lifting time.
- Arrangement for stabilizer of vehicle for better Strength at the time of operation.

Code	QEESL
Chassis	TATA / LAYLAND / EICHER / MAHINDAR etc.
Size Available	7 Mtr, 9 Mtr, 11 Mtr, 14 Mtr, 16 Mtr Or Customized.
Sheet Material	Mild Steel IS:2062 Grade-A
Thickness	3mm 4mm 5mm 6mm etc.
Bucket	600 / 1100 Volts Insulated Material With Single Person Or Two Person.
Hydraulic Cylinder	Dental / Hitech / QEEPL
Hydraulic Pump	20-80 LPM Gear Pump / Vane Pump
Hydraulic Motor	50-200 CC High Pressure Hoses
Hydraulic Hoses	ISO Reputed Make
Power Take Off	Suitable Power Transfer Ratio From Gear Box to Drive Shaft
Hydraulic Tank	20 to 80 Litres
Slewing	360°
